

FINANCIAL PERFORMANCE FOR THE PERIOD ENDED DECEMBER 31, 2010

With the general macro economic factors stabilizing and certain key indicators showing signs of improvement we are cautiously optimistic of the future. However, we recognize that any such improvement will be gradual.

Despite current economic constraints, the Bank's balance sheet remains strong. We are pleased to have achieved a strategic goal during the currency of the review period with total assets exceeding the \$800 million mark settling at approximately \$817 million at the period end, compared to \$778 million as of June 30, 2010. Overall deposits stood at approximately \$640 million compared to \$603 million as at June 2010, representing an increase of 6.2%. The Bank's risk adjusted total capital ratio ended at 23.72% versus 22.54% in the prior year, substantially ahead of regulatory requirements.

The current low level of economic output makes revenue growth challenging. However, we are pleased to report year to date growth in net interest income of approximately \$3.2 million. While our profitability this quarter exceeded last year's by 67% we are still concerned about the credit market as unemployment remains high and continues to negatively influence the status of non-accrual loans. Loan loss provisions year to date were \$3.1 million, driven by, comparatively, a larger number of non-accrual loans.

The Bank continues with its strategic imperative to build its electronic banking capacity and concurrently expand its franchise and enhance its delivery channels. This important thrust impacts the increase in operating expenses period over period. However, the overall improvement in both revenue and profitability is reflective of improvements in market share and operating efficiency.

The Bank is cognizant that it is operating within a highly dynamic economic environment with rapidly evolving regulatory standards. It is committed to ensuring that its financial condition remains strong and resilient while balancing the need to optimize stakeholder value.

Again, we thank our directors, shareholders, management and our team of administrative professionals for their undiminished support.
